There are various features of this APP but the purpose of this guide is to assist you in the reporting of results.

On opening the APP the following page should be viewable; this is the landing page and shows your next match. To access the result reporting section click on the fixtures tab (highlighted):

Once selected, you will see all of your upcoming fixtures. To record a result you will need to click on the report button for the relevant fixture. Once you're into the reporting page please click on edit score

Adjust the score accordingly using the + & - buttons, it isn't a mandatory requirement to record the half time score, once you're happy you have recorded correctly and the right way round please click 'confirm' to return back to the previous page.

Please note The app says that team marks are mandatory, for the purpose of result reporting we have omitted this feature so this isn't the case and it only becomes mandatory when you pick and select your team.
